

# iLite<sup>®</sup> Assay Ready Cells containing cryoprotective medium from Gibco, GMM class 2

BM6050, BM6002, BM6005, BM6006, BM6008, BM6009

## SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

### 1.1 Product identifier

<b>Product name:</b>	iLite <sup>®</sup> cGMP/GC Responsive Assay Ready Cells Assay Ready Cells iLite <sup>®</sup> AAV2 Packaging Assay Ready Cells iLite <sup>®</sup> AAV5 Packaging Assay Ready Cells iLite <sup>®</sup> AAV6 Packaging Assay Ready Cells iLite <sup>®</sup> AAV8 Packaging Assay Ready Cells iLite <sup>®</sup> AAV9 Packaging Assay Ready Cells
<b>Product description</b>	iLite Assay Ready Cells containing cryoprotective medium from Gibco (cat no 12648-010)
<b>Product code</b>	BM6050, BM6002, BM6005, BM6006, BM6008, BM6009

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Use of the product** Laboratory chemicals. For research use only.

### 1.3 Details of the supplier of the safety data sheet

<b>Company</b>	Svar Life Science AB
<b>Address</b>	Lundvägen 151
<b>Zip code/Place</b>	SE-212 24 Malmö, Sweden
<b>Telephone</b>	+46 40 53 76 00
<b>Website</b>	<a href="http://www.svarlifescience.com">www.svarlifescience.com</a>
<b>E-mail</b>	<a href="mailto:info@svarlifescience.com">info@svarlifescience.com</a>

### 1.4 Emergency telephone number

**Emergency telephone number** (Sweden) Acute: 112 – Ask for "Giftinformation". If less acute call: +46 010 4566700.  
Other countries: Please contact local emergency telephone number.

## SECTION 2: HAZARDS IDENTIFICATION

### 2.1 Classification of the substance or mixture

Classification according to the Regulation (EC) No. 1272/2008 (CLP):

The mixture is not to be classified according to CLP.

The mixture is covered by Directive 2009/41/EC on the contained use of genetically modified micro-organisms and classified as a Class 2 Genetically Modified Microorganism.

The mixture is covered by Directive 2000/54/EC of 18 September 2000 on the protection of workers from risks related to exposure to biological agents at work.

### 2.2 Label elements

None

## 2.3 Other hazards

**Other hazards which do not result in classification** Contains Fetal Bovine serum, which is derived from cattle with US origin. The Certificate of Analysis for FBS show that the substance has been analyzed for Blue tongue Virus, Bovine Adenovirus, Bovine Parvovirus, Rabies Virus, Reovirus, BRSV Fluorescent Antibody, BVDV Fluorescent Antibody, Cytopathogenic agents and Hemadsorbing agents with a negative result.

The product is considered to contain Genetically Modified Microorganisms requiring containment Class 2 under Council Directive 2000/41/EC (ie. activities of low risk).

**Substance meets the criteria for PBT/ vPvB under Regulation EC No. 1907/2006, appendix XIII** PBT/ vPvB: No

**Endocrine disrupting properties** The substances are not identified as having endocrine disrupting properties in accordance with the criteria set out in Regulation 2017/2100 or Regulation 2018/605.

## SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

### 3.2 Mixtures

Assay Ready Cells suspended in cryoprotective medium from Gipco containing the following substances:

No	Product/ingredient name	EC-number	CAS-number	REACH registration number	Conc. (%w/w)	Classification Regulation (EC) No. 1272/2008 [CLP]
	Fetal Bovine Serum (Heat inactivated FBS)	--	--	--	10	None
	Dimethyl Sulfoxid (DMSO)	200-664-3	67-68-5	--	10	None

## SECTION 4: FIRST-AID MEASURES

### 4.1 Description of first aid measures

**On suspicion of possible infection from biological agents – seek medical advice!**

<b>Inhalation:</b>	Move to fresh air. Keep at rest and under surveillance. If needed: seek medical advice.
<b>Skin contact:</b>	Remove contaminated clothing at once. Flush skin and wash thoroughly with soap and water.
<b>Eye contact:</b>	Keep eyelids well apart. Rinse with water for a couple of minutes, remember to remove contact lenses if any. If irritation persists: Seek medical advice.
<b>Ingestion</b>	Rinse mouth and drink plenty of water. If needed or if larger amounts has been swallowed: Seek medical advice.

### 4.2 Most important symptoms and effects, both acute and delayed

<b>Skin contact:</b>	May cause irritation of skin.
<b>Eye contact:</b>	May cause irritation of eyes.
<b>Inhalation</b>	Prolonged or frequent exposure to vapours of volatile organic compounds may result in damage on liver, kidneys, blood or central nervous system (including brain damage).

### 4.3 Indication of any immediate medical attention and special treatment needed

Show this safety data sheet to a physician or emergency ward

## SECTION 5: FIREFIGHTING MEASURES

### 5.1 Extinguishing media

<b>Suitable extinguishing media</b>	Use water spray, carbon dioxide, dry chemical or foam.
<b>Unsuitable extinguishing media</b>	Waterjet

## 5.2 Special hazards arising from the substance or mixture

<b>Hazards from the substance or mixture</b>	None
<b>Hazardous thermal decomposition products</b>	Decomposition products may include the following materials: oxides of carbon and sulphur.

## 5.3 Advice for firefighters

<b>Special protective actions for fire-fighters</b>	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
<b>Special protective equipment for fire-fighters</b>	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.
<b>Further information</b>	Not applicable

## SECTION 6: ACCIDENTAL RELEASE MEASURES

### 6.1 Personal precautions, protective equipment and emergency procedures

<b>For non-emergency personnel</b>	Use personal protective equipment – see section 8. No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. The employees or the company's occupational health and safety organization must be informed immediately of any accident or incident that may have resulted in the release of biological agents, which may cause disease in humans.
<b>For emergency responders</b>	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also Section 8 for additional information on hygiene measures.

### 6.2 Environmental precautions

Do not empty into drains – see section 12. Inform appropriate authorities in accordance with local regulations.

### 6.3 Methods and material for containment and cleaning up

<b>Small spill</b>	Stop leak if without risk. Move containers from spill area. Wipe up spillage etc. with paper towels. Use wet towels to finish cleaning up. Follow the laboratory's general decontamination procedure for infectious waste. Flush area of decontamination with water. Further handling of spillage – see section 13.
<b>Large spill</b>	Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with absorbent material as vermiculite. Further handling of spillage – see section 13.

### 6.4 Reference to other sections

See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information.

## SECTION 7: HANDLING AND STORAGE

### 7.1 Precautions for safe handling

<b>Protective measures</b>	Before use, a workplace assessment of the safety and health conditions at the working place must be carried out according to the general specifications mentioned in the EU Directive 2000/54/EC on biological agents and work. Work must be planned, organized and carried out so that the influence of biological agents is avoided as much as possible. Only use laboratory facilities, which meet the requirements for containment Class 2 according to Council Directive 2000/41/EC. Access to the area should be restricted. Biohazard sign on the door. No tool or used material should after end use be placed on tables or similar but collected immediately in special sealed containers. Recycling of tools should only take place after proper disinfecting and purification. If appliances are contaminated, washing must be made with appropriate disinfectant before further use.
<b>Advice on general occupational hygiene</b>	Eating, drinking and smoking should be prohibited in areas where this material is handled. Avoid contact with skin, eyes and clothing. Always wash hands with soap and water after completing work, and when leaving the laboratory (e.g. before going to the toilet and at the end of the workday). Do not pipette by mouth pipetting. See also Section 8 for additional information on hygiene measures.

### 7.2 Conditions for safe storage, including any incompatibilities

<b>Storage:</b>	Upon receipt confirm that adequate dry-ice is present and the cells are frozen. Immediately transfer to -80 °C (do not store at any other temperature). Cells should be used within 30 min of thawing and should be diluted immediately after thawing.
<b>Further information:</b>	Access to the area should be restricted. Biohazard sign on the door.

### 7.3 Specific end use(s)

Laboratory chemicals for research use only.

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1 Control parameters

#### Occupational exposure limits - DMSO

European Union: None

UK: None

Sweden:	NGV	KGV	Comments
	50 ppm = 150 g/cm <sup>3</sup>	150 ppm = 500 g/cm <sup>3</sup>	H,V
	H: Skin permeable	V: Indicative short-term exposure limit	

Germany, MAK: 50 ppm = 160 mg/m<sup>3</sup>

Denmark: 50 ppm = 160 mg/m<sup>3</sup>

Finland: 50 ppm (8h)

Austria: 50 ppm = 160 mg/m<sup>3</sup>

Switzerland: 50 ppm = 160 mg/m<sup>3</sup>

<b>Recommended monitoring procedure</b>	Not relevant
---	--------------

#### Derived effect levels

Product/ingredient name	Type	Exposure	Value	Population	Effects
--	--	--	--	--	--

<b>Predicted effect concentrations</b>	Not available
<b>PNEC Summary</b>	Not available – No CSR

## 8.2 Exposure controls

<b>Appropriate engineering controls</b>	Sufficient ventilation.
<b>Hygiene measures</b>	Wash hands thoroughly after handling chemical products, before eating, drinking, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash and disinfect contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
<b>Respiratory protection</b>	Not relevant during normal condition.
<b>Eye/face protection</b>	Use safety glasses (according to EN166) when there is risk of splashes.
<b>Hand protection</b>	Wear protective gloves (according to EN374) of butyl rubber or nitrile rubber.
<b>Body protection</b>	Wear suitable protective clothing.
<b>Environmental exposure controls</b>	Not applicable

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties

<b>Physical state:</b>	Liquid
<b>Colour:</b>	n.d
<b>Odour:</b>	n.d
<b>Melting point/freezing point (°C):</b>	n.d
<b>Boiling point or initial boiling point and boiling range (°C):</b>	n.d
<b>Flammability (solid, gas):</b>	n.a
<b>Lower and upper explosion limit (vol-%):</b>	n.d
<b>Flash point (°C):</b>	n.d
<b>Auto-ignition temperature (°C):</b>	n.d
<b>Decomposition temperature (°C):</b>	n.d
<b>pH:</b>	n.d
<b>Kinematic viscosity:</b>	n.d
<b>Solubility:</b>	n.d
<b>Partition coefficient n-octanol/water (log value):</b>	n.d
<b>Vapour pressure:</b>	n.d
<b>Density and/or relative density:</b>	n.d
<b>Relative vapour density:</b>	n.d
<b>Particle characteristics:</b>	n.a

n.d = not determined

n.a = not applicable

### 9.2 Other information

Not applicable

**SECTION 10: STABILITY AND REACTIVITY**

<b>10.1 Reactivity</b>	No available information
<b>10.2 Chemical stability</b>	Stabile at recommended storage conditions – see section 7.
<b>10.3 Possibility of hazardous reactions</b>	No available information.
<b>10.4 Condition to avoid</b>	No available information.
<b>10.5 Incompatible materials</b>	No available information.
<b>10.6 Hazardous decomposition products</b>	When heated to high temperatures (decomposition) toxic fumes are emitted: Oxides of carbon and sulphur.

**SECTION 11: TOXICOLOGICAL INFORMATION**

In addition to the hazardous properties mentioned below, the risk of infection from the biological agents present in the product must also be taken into account.

**11.1 Information on toxicological effects**

Hazard class	Data (DMSO)	Test	Reference
Acute toxicity: Inhalation	LD <sub>50</sub> (rat) > 2 mg/l/4h	No information	IUCLID
Dermal	LD <sub>Lo</sub> (rat) > 40000 mg/kg	No information	IUCLID
Oral	LD <sub>50</sub> (rat) = 14500 mg/kg	No information	IUCLID
Corrosion/irritation	Mild eye and skin irritation, rabbit	OECD 404, EU Method B.5	ECHA
Sensitization	No skin sensitization, guinea pig	Buehler	IUCLID
CMR	No mutagenicity, carcinogenicity, genotoxicity	Several	Merck/IUCLID

**Acute toxicity**

Assessment for other reagents than DMSO: No data available.  
Based on available data, the classification criteria are not met.

**Irritation/Corrosion**

Assessment for other reagents than DMSO: No data available.  
Based on available data, the classification criteria are not met.

**Sensitization by inhalation/skin contact**

Assessment for other reagents than DMSO: No data available.  
Based on available data, the classification criteria are not met.

**Germ cell mutagenicity**

Assessment for other reagents than DMSO: The chemical structure of the different reagents doesn't indicate any mutagenic effects. Based on available data, the classification criteria are not met.

**Carcinogenicity**

Assessment for other reagents than DMSO: The chemical structure of the different reagents doesn't indicate any carcinogenic effects. Based on available data, the classification criteria are not met.

**Reproduction toxicity**

Assessment for other reagents than DMSO: The chemical structure of the different reagents doesn't indicate any reproduction toxic effects. Based on available data, the classification criteria are not met.

### Developmental toxicity

Assessment for other reagents than DMSO: The chemical structure of the different reagents doesn't indicate any teratogenic effects. Based on available data, the classification criteria are not met.

### Specific target organ toxicity (single exposure)

STOT assessment single dose toxicity: No data available.  
Based on available data, the classification criteria are not met.

### Repeated dose toxicity and specific organ toxicity (repeated exposure)

Prolonged or frequent exposure to vapours of volatile organic compounds may result in damage on liver, kidneys, blood or central nervous system (including brain damage).  
Based on available data, the classification criteria are not met.

### 11.2. Information on other hazards:

None known.

## SECTION 12: ECOLOGICAL INFORMATION

### 12.1 Toxicity

#### 12.1.1 Acute toxicity in the aquatic environment for DMSO

Test	Value/unit (mg/l)	Test method	Exp. time (h)	Species
Fish LC <sub>50</sub>	32000	Static (FW)	96	Oncorhynchus mykiss
Daphnia EC <sub>50</sub>	7000	No info. (FW)	24	Daphnia sp.
Algae EC <sub>50</sub>	12350-25500	No info. (SW)	96	Skeletonema costatum

#### 12.1.2 Acute toxicity in the aquatic environment other reagents than DMSO

No data available.

#### 12.1.3 Ecotoxicity

No data available.

### 12.2 Persistence and degradability

**Conclusion/Summary** DMSO is not readily degradable (3.1% after 14 days in OECD 301C test).

### 12.3 Bioaccumulative potential

**Conclusion/Summary** DMSO: Log K<sub>ow</sub> -1,35 – No significant bioaccumulation.

### 12.4 Mobility in soil

**Soil/water partition coefficient (KOC)** DMSO: K<sub>oc</sub> (calculated) < 10 – Very high mobility expected in soil environments.  
**Mobility** No available data

### 12.5 Results of PBT and vPvB assessment

**PBT** The substance is not considered PBT according to criteria in Annex XIII.  
**vPvB** The substance is not considered vPvB according to criteria in Annex XIII.

### 12.6. Endocrine disrupting properties

None known.

### 12.7 Other adverse effects

None known.

## SECTION 13: DISPOSAL CONSIDERATIONS

### 13.1 Waste treatment methods

**Method of disposal** Biological agents are considered hazardous waste. Disposal should be according to local, state or national legislation.

Note! Waste containers containing biological material must be labeled with:  (black symbol on yellow background).

The generation of waste should be avoided or minimized wherever possible. This material and its container must be disposed of in a safe way by incineration.

**Hazardous waste**

Within the present knowledge of the supplier, this product is regarded as hazardous waste, as defined by EU Directive 2008/98/EC.

### European Waste Catalogue (EWC)

EWC Waste Code	Type of waste
18 01 03	Wastes whose collection and disposal is subject to special requirements in order to prevent infection
15 02 02	Absorbent material containing residues of or contaminated by dangerous substances

### Packaging

<b>Method of disposal</b>	Incineration.
<b>Special precautions</b>	None.

## SECTION 14: TRANSPORT INFORMATION

Product is not classified as dangerous goods.

	ADR/RID	ADN/ADNR	IMDG	IATA
<b>14.1 UN number or ID number</b>	3373	--	--	--
<b>14.2 UN proper shipping name</b>	Biological Substances, Category B	--	--	--
<b>14.3 Transport hazard class(es)</b>	6.2	--	--	--
<b>14.4 Packing Group</b>	P650	--	--	--
<b>14.5 Environmental hazards</b>	--	--	--	--
<b>14.6 Special precautions for user</b>	No	No	No	No
<b>14.7 Maritime transport in bulk according to IMO instruments</b>	Not applicable	Not applicable	Not applicable	Not applicable
<b>Additional information</b>	Waste containing used biological agents <u>may</u> be considered as dangerous goods under: <b>UN 3291, CLINICAL WASTE, UNSPECIFIED; N.O.S., or (BIO) MEDICAL WASTE N.O.S. or REGULATED MEDICAL WASTE, N.O.S. Class 6.2 Packing Group II</b>			

**SECTION 15: REGULATORY INFORMATION**
**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

Must not be used by persons under 18 years of age (Directive 94/33/EC).

The employer shall assess the working conditions and, if there is any risk to the safety or health and any effects on the pregnancy or breastfeeding of workers, take the necessary measures to adjust the working conditions (Directive 92/85/EEC)

The mixture is covered by:

Directive 2009/41/EC on the contained use of genetically modified micro-organisms

Directive 2000/54/EC – biological agents at work

EU Regulation (EC) No. 1272/2008 (CLP): Not classified.

**EU Regulation (EC) No. 1907/2006 (REACH)**

**Annex XIV – List of substances subject to authorization**

**Substances of very high concern**

None of the components are listed.

**Annex XVII – Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles**

Not applicable

**15.2 Chemical safety assessment**

No CSR.

**Other information**

<b>Tariff Code harmonized system</b>	Not applicable
<b>The EU Seveso Directive</b>	Not applicable

**International regulations**

<b>Chemical Weapons Convention List Schedule I Chemicals</b>	<b>Chemical Weapons Convention List Schedule II Chemicals</b>	<b>Chemical Weapons Convention List Schedule III Chemicals</b>
Not regulated	Not regulated	Not regulated

**SECTION 16: OTHER INFORMATION**

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II.

**LIST OF HAZARD STATEMENTS MENTIONED UNDER SECTION 3:** None

**Abbreviations:**

BRSV = Bovine Respiratory Syncytial Virus

BVDV = Bovine Viral Diarrhea Virus

CMR = Carcinogenicity, Mutagenicity, and Reproduction toxicity

CSR = Chemical Safety Report

DNEL = Derived No-Effect Level

EC50 – Half maximal effective concentration

FW = Fresh Water (Färskvatten)

KGV = Korttidsvärde (Swedish for short term exposure limit)

LC50 = Lethal Concentration 50 %

LD50 = Lethal Dose 50 %

MAK = Maximale Arbeitsplatzkonzentrationen (German for maximum workplace concentration)

NGV = Nivågränsvärde (Swedish for exposure limit)

PBT = Persistent, Bioaccumulative, Toxic

PNEC = Predicted No-Effect Concentration

vPvB = very Persistent, very Bioaccumulative

**Literature:**

Merck (Safety Data Sheet)  
IUCLID = International Uniform Chemical Information Database  
ECHA = European Chemicals Agency

**Other information**

No special training is required. However, the user should be well instructed in the execution of his/her task, be familiar with this Safety Data Sheet and have normal training in the use of personal protective equipment.

**Revisions**

Version	Valid from (date)	Changes
1.0	15-Jun-2021	New document, in compliance with Regulation 2020/878
2.0	16-Jun-2023	Addition of BM6002, BM6005, BM6006, BM6008, and BM6009
